

VITALSOURCE® LMS/CMS INTEGRATION

VitalSource's Single-Sign-On (SSO) integration with the leading LMS/CMS providers means:

- No applications to load
- No accounts to create
- No codes to redeem

Students go directly from the course into a fully-functional VitalBook-version of your title. In most implementations, that means mandatory 100% sell through for your books.

VitalSource fulfills orders and protects content, but we don't get in the way. You still work directly with the institution to set prices and licensing options.

SERVICES INCLUDE

- Digital content enhancement
- Industry-leading DRM
- Full service and support SLAs available
- E-textbooks accessible for the disabled
- Industry standard web-services ready for new integrations
- Content usage data available
